Added Respondent

SUPPLEMENTARY AFFIDAVIT ON BEHALF OF THE RESPONDENT

I, **KEMRAJ PARSRAM**, Executive Director of the Environmental Protection Agency
(EPA), of Ganges Street, Sophia, Georgetown, being duly sworn, MAKE OATH AND
SAY:

- 1. I am the Deponent herein.

2. I am duly authorized to make the following averments on behalf of the EPA, the Respondent in this matter.
3. The facts deposed to herein are within my personal knowledge save where based on information and belief in which case I verily believe same to be true and correct, and from the pleadings, documents, letters, files, statements and other written material in my possession in connection with this matter.
4. This Supplementary Affidavit is made pursuant to the Order of this Honourable Court, made during the January 16, 2023, hearing of this matter, which was initiated by Fixed Date Application dated the 13th day of September 2022 (FDA), together with an Affidavit in Support of the FDA. Subject to this Honourable Court's record, the Court ordered the filing and service of,

a Supplementary Affidavit clearly and concisely setting out the steps, if any, taken by the Added Respondent, Esso Exploration Production Guyana Limited (EEPGL), up to the present date, to comply with *Conditions 14.2, 14.3, 14.5, 14.9 and 14.10 of Environmental Permit (Renewed) 20160705-EEDPF*, containing evidence of the relevant documents on or before January 23, 2023.

EEPGL's obligations under *Conditions 14.2, 14.3, 14.5, 14.9 and 14.10*

5. *Environmental Permit (Renewed) 20160705-EEDPF* pertains to the Liza Phase 1 Project for the operation of Petroleum Production Facilities in the Stabroek Block, offshore Guyana, and was issued on May 31, 2022, to EEPGL, upon the expiration of *Environmental Permit (Amended) 20160705-EEDPF*.
6. I am advised by my Attorneys-at-law and verily believe that *Condition 14.2* requires EEPGL to provide and/or declare two distinct forms of Financial

Assurance, being Insurance, and a Parent or Affiliate Agreement, within a reasonable time of the signing of *Environmental Permit (Amended) 20160705-EEDPE*.

7. *Condition 14.2* provides as follows,

14.2 The Permit Holder shall provide and/or declare within a reasonable time following the signing of this Permit, a combination of the following forms of financial assurance to cover all its legitimate liabilities under this permit.

a) Insurance in accordance with *Condition 14.5* and shall cover well control, and/or clean up and third party liability on terms that are market standard for the type of coverage;

b) A Parent Company/Affiliate (of Operator and Co-Venturers (CoVs)) undertaking that provides indemnification for liabilities under this Permit.

8. I am advised by my Attorneys-at-law and verily believe that *Condition 14.2* is amplified by the provisions of *Condition 14.5, 14.9 and 14.10*, with *Conditions 14.5, 14.9* amplifying *Condition 14.2(a)*, and *Condition 14.10* amplifying *Condition 14.2(b)*.

9. I am further advised by my Attorneys-at-law and do verily believe that with respect to Insurance, *Conditions 14.5 and 14.9* provide as follows,

14.5 The Permit Holder shall have valid and effective environmental liability insurance, of such type and in such amount as is customary in the international petroleum industry, for petroleum operations in relation to this Permit, which insurance shall be procured from an Insurance Company assigned grade A+ by the Better Business Bureau (BBB) or equivalent as deemed appropriate by the Agency, and shall include, but may not be limited to insurance in respect of:

i loss or damage to all assets used in Project;

ii environmental damage caused in the course of the Project for which EEPGL will be, jointly and severally, held responsible;

iii loss or damage to property or bodily injury suffered by any third party in the course of the Project for which EEPGL is liable to;

iv the cost of removal wreckage and clean-up operations required as a result of an accident occurring in the course of permitted activities;

v EEPGL's liability to its employees engaged in the Project; and
vi any other requirement(s) made by the Agency.

14.9 The Permit Holder shall submit to the Agency, as soon as reasonably practicable upon its request:

i the Environmental Liability Insurance policies in both a printed and electronic copy;

ii a summary of the Environmental Liability Insurance policies detailing the insurer, the type of insurance, the amount of coverage provided by each policy, key terms of the insurance policies, what types of environmental damage the policies cover, what types of environmental damage the policies do not cover, and the duration of each policy;

iii evidence that the insurer is authorized to provide the insurance in Guyana;

iv evidence of authorisation of the institution or parent (insurers) to provide insurance;

v evidence of the insurer's financial strength; and

vi evidence of the insurer's BBB grade.

10. I am also advised by Attorneys-at-law and do verily believe that with respect to the Parent or Affiliate Agreement, **Condition 14.10** provides as follows,

14.10 The Permit Holder must, as soon as reasonably practicable, provide from the Parent Company or Affiliate Companies or Permit Holder and its Co-Venturers ("Affiliates") one or more legally binding agreements to the Agency, in which the Parent Company or Affiliate Companies of Permit Holder and its Co-Venturers undertake to provide adequate financial resources for Permit Holder and its Co-Venturers to pay or satisfy their respective environmental obligations regarding the Stabroek Block, if Permit Holder and/or its Co-Venturers fail to do so, and to so indemnify and keep indemnified the Agency and the Government of Guyana, against all such environmental obligations regarding the Stabroek Block.

1 Provide evidence of the following:

a That the Affiliates(s) are authorized to provide that guarantee or agreement in this jurisdiction.

b That the Affiliates(s) have sufficient financial strength for the amount of the potential liability.

c That the Affiliates(s) have the corporate legal capacity to enter into the agreement.

2 Agree to the following:

- a To provide notification of cancellation, expiration, renewal or non-renewal and expiry dates of the Agreement.
- b As well as, to provide annual audited financial statements and notification if the Affiliate(s) are no longer likely to be able to meet specified financial obligations.

11. I also put forward that my Attorneys-at-law, whom I verily believe, have advised that pursuant to *Condition 14.3*, the forms of Financial Assurance required by *Conditions 14.2, 14.5, 14.9 and 14.10* must be guided by an estimate of the sum of the reasonably credible costs, expenses, and liabilities that may arise from breaches of *Environmental Permit (Renewed) 20160705-EEDPF*. In this regard, *Condition 14.3* provides,

The forms of financial assurance shall be guided by an estimate of the sum of the reasonably credible costs, expenses, and liabilities that may arise from any breaches of this Permit. Liabilities are considered to include costs associated with responding to an incident, clean-up and remediation and monitoring. The estimation is not expected to address unidentifiable or inestimable costs which may be associated with compensation for loss and ongoing damage to other parties, and which are able to be pursued through civil action.

EEPGL's compliance with *Conditions 14.2, 14.3, 14.5, 14.9 and 14.10*

12. The Respondent has monitored continuously the compliance by EEPGL and is satisfied that EEPGL has been and is in compliance with *Environmental Permit (Renewed) 20160705-EEDPF*.

13. I am advised by my Attorneys-at-law whom I verily believe that *section 31(1) and (2) of the Environmental Protection Act Cap 20:05* provides that a requirement for Financial Assurance pursuant to an Environmental Permit "shall specify the amount of financial assurance". *Sections 31(1) and (2) of the Environmental Protection Act Cap 20:05* declares,

[t]he Agency may include in any environmental authorisation a requirement that the person to whom that environmental authorisation is

issued shall provide financial assurance to the State...A requirement under subsection (1) shall specify the amount of financial assurance...

14. In conformity with *sections 31(1) and (2) of the Environmental Protection Act Cap 20:05, at Condition 14.5*, the Respondent required EEPGL to provide environmental liability insurance "in such amount as is customary in the international petroleum industry, for petroleum operations".
15. Following the issuance of *Environmental Permit (Renewed) 20160705-EEDPF*, on May 31, 2022, and in compliance with *Conditions 14.2(a), 14.5 and 14.9*, on August 15, 2022, EEPGL declared and submitted its Insurance Policy and a summary of same to the Respondent. **Hereto attached and marked Exhibit "A", is a copy of EEPGL's August 15, 2022 letter, declaring and submitting its Insurance.**
16. EEPGL's Insurance is provided through AON, a British-American multinational financial provider of risk-mitigation products, including environmental risk, commercial risk, health risk, and other solutions. **Hereto attached and marked Exhibit "B", is a copy of the Insurance Policy declared and submitted by EEPGL.**
17. As it relates to the Parent or Affiliate Agreement, EEPGL declared and submitted a Draft Parent or Affiliate Agreement which is currently being negotiated by and between the Respondent and EEPGL, with the involvement of the Office of the Attorney General of Guyana, who has been engaged to represent the interests of the Government of Guyana.
18. In conformity with *sections 31(1) and (2) of the Environmental Protection Act Cap 20:05*, as well as *Condition 14.3 of Environmental Permit (Renewed) 20160705-EEDPF*, the Respondent requires the Parent or Affiliate Agreement to be informed

by an estimate of the sum of the reasonably credible costs, expenses, and liabilities that may arise from any breaches of *Environmental Permit (Renewed) 20160705-EEDPF*.

19. The Respondent determined that in arriving at this estimate, EEPGL must:
 - a. procure a Consultant, approved by the Respondent, to calculate the estimate;
 - b. satisfy the Respondent of the methodology to be employed when generating the estimate, and further satisfy the Respondent that the chosen methodology is in conformity with what is customary in the international petroleum industry; and
 - c. collect the necessary information to be applied using the methodology selected.

20. EEPGL is, and at all material times, has been in compliance with these directives, and is, has been taking the required steps to ensure that the Parent or Affiliate Agreement is concluded within a reasonable time.

Procuring the Consultant and Identifying the Methodology

21. As it relates to the procurement of a Consultant, the Respondent and EEPGL attended a series of meetings to discuss and identify a suitable Consultant to calculate the estimate. Upon identifying the said Consultant, EEPGL was required to ensure that the selected Consultant was available and competent to carry out the complex calculations for the Guyana context, utilizing an appropriate methodology which is in conformity with what is customary in the international petroleum industry.

22. During one of its weekly meetings with EEPGL, the Respondent was made aware that EEPGL had issued a request for a proposal for the provision of consultancy

services from the said Consultant on June 15, 2022, and that by July 15, 2022, EEPGL had received a proposal.

23. The Respondent is also aware that on August 5, 2022, EEPGL submitted a request to the Minister responsible for Petroleum, Hon. Vickram Bharrat, for approval from the Local Content Secretariat pursuant to the Local Content Act of 2021, to sole source an agreement with the said Consultant, which request was approved on August 12, 2022. **Hereto attached and marked Exhibit "C", is a copy of the said approval issued by the Minister responsible for Petroleum**
24. Between August and September, the Consultant, the Respondent and EEPGL were engaged in reviewing potential methodologies which could be employed when generating the estimate. Thereafter, the Respondent determined the most appropriate methodologies for the Guyana context and required EEPGL to retain the Consultant to calculate estimates utilizing two of the selected methodologies. This choice of methodologies then enabled EEPGL to negotiate terms and conditions of a consultant agreement with the selected Consultant.
25. From the time of the signing of *Environmental Permit (Renewed) 20160705-EEDPF*, the Respondent has scheduled weekly meetings with EEPGL to monitor the progress of the calculation of the estimate. At or around, September 28, 2022, during one of its weekly meetings with EEPGL, the Respondent was made aware that EEPGL had retained the Consultant to calculate the estimate.
26. The Respondent receives weekly updates from EEPGL on the status of the Study which is not yet complete. The Respondent is wholly satisfied that EEPGL is taking the necessary steps to collect the data necessary for calculating the estimate, within a reasonable time. This is the first time such a study has been carried out in Guyana and therefore the data has to be created from the inception.

Data collection

27. The Respondent considers that the data required for the calculation of the estimate is complex and more refined and comprehensive, than the data which is readily available to the Respondent. It requires *inter alia*, metaocean data, oil spill modelling and an in-depth analysis of anticipated costs (including socio-economic costs). EEPGL was therefore required to develop the necessary data set in order to calculate the most credible estimate as required by **Condition 14.3 of the Permit**.
28. The Respondent considers that the estimate also requires the application of data which can be obtained through an Ecosystem Services and Dependencies Study. This Study gathered data on ecosystem services in Guyana including the benefits that people obtain from the natural environment, including natural resources that underpin basic human health and survival needs, support economic activities and provide cultural fulfilment. This Ecosystem Services and Dependencies Study required the collection of field data which EEPGL had been in the process of collecting in Guyana over a period of nine months beginning in January of 2022.
29. This Ecosystem Services and Dependencies Study and its data was submitted to the Respondent for review on January 4, 2023.
30. At all material times, EEPGL has been forthcoming and compliant with regard to the calculation of the estimate necessary for the conclusion of the Parent or Affiliate Agreement declared and submitted.
31. During one of its weekly meetings, at or around January 5, 2023, the Respondent directed EEPGL to provide it with a draft report of the Consultant's findings no

later than January 31, 2023. The submission and review of this report is another integral step towards the execution of the Draft Parent or Affiliate Agreement.

32. Upon the determination of the aforementioned estimate, and the finalization of the Draft Parent or Affiliate Agreement by and between the Respondent and EEPGL, the Agreement would be duly executed as soon as reasonably practicable as required by *Condition 14.10 of the Permit*.
33. The aforesaid Draft Parent or Affiliate Agreement (which is a step which must be taken towards securing compliance with the Conditions of the Permit) is still being negotiated by and between the Government of Guyana (the Respondent and the Office of the Attorney-General) and EEPGL, and is subject to confidentiality. This notwithstanding, to demonstrate its bona fides if necessary, the Respondent is prepared to make a copy of the said Draft Agreement, available to the Honourable Judge for his review and consideration.

Public knowledge on the status of the Respondent's Financial Assurance deliberations

34. At all material times, the Respondent has been forthcoming with the members of the public as it relates to the receipt and the status of its Financial Assurance deliberations.
35. In an August 6, 2022 edition of the Kaieteur News publication, the Respondent issued a statement to the public speaking directly to the issue of Insurance and the Parent Company or Affiliate Guarantee Agreement. **Hereto attached and marked Exhibit 'D' is a copy of the said article.**
36. Subsequently, in an August 17, 2022 edition of the Guyana Times Newspaper, the public was made aware that the Respondent is still in the negotiating phase regarding Financial Assurance. **Hereto attached and marked Exhibit 'E' is a copy of the said article.**

37. The Respondent continues to engage the public on this topic via its website, interviews, social media platforms, and so forth.
38. The Respondent is fully satisfied with the steps taken by EEPGL in observance of *Conditions 14.2, 14.3, 14.5, 14.9 and 14.10*, and therefore, in the circumstances, has determined that EEPGL is in compliance with *Environmental Permit (Renewed) 20160705-EEDPF*, at the present time.
39. I am advised by my Attorneys-at-law and verily believe that the Applicants' FDA discloses no ascertainable ground for Judicial Review since the Applicants have failed or neglected to demonstrate that EEPGL has failed to comply with *Condition 14 of Environmental Permit (Renewed) numbered 20160705 EEDPF*.
40. I respectfully ask that none of the orders sought in this FDA be granted.
41. This Affidavit was drawn upon my instructions by Ms. Frances Carryl, Ms. Shareefah Parks and Ms. Niomi Alsopp, Attorneys-at-law for the Respondent whose address for service is Ganges Street, Sophia, Georgetown, Guyana.

Information for Aon Clients

This document is the Insurer agreed Contract of Insurance which provides evidence of cover in accordance with the heading "Insurer Contract Documentation" in the Risk Details section.

The Contract Administration and Advisory Sections facilitate the administration of the placement between the Insurer and Broker.

Taxes

Over the course of the placement of your Insurance Aon collect information relating to the underlying risks and the location of such risks. This information can assist in identifying premium allocations by country/territory and to produce tax schedules for inclusion in contract documentation. It is your obligation to ensure the accuracy of such information.

Where applicable, Aon will collect the tax amounts due and pass them to the Insurer(s) to settle with the relevant tax authorities. Insurers will be responsible for confirming that the taxes identified for collection in the tax schedule are correct. In certain circumstances, taxes may be payable by the Insured. Whilst we endeavour to identify such taxes, please note that Aon is not a tax adviser and it is your responsibility to ensure that such taxes are correctly identified and remitted. If you require independent advice on your tax liabilities, you should consult with your tax adviser.

It is important to note that where a tax schedule is completed this merely represents a proposed apportionment of premium calculated on a pro rata basis, and utilises rates that Aon has taken from tax calculation systems, as at the date the tax schedule was produced. The purpose of tax schedules is to provide information to Insurers which they may, if they wish, use in establishing an apportionment of premium for taxation and legislative reporting purposes.

This procedure in no way changes Insurers' responsibilities for making this calculation and/or ensuring that the correct tax rates are applied.

Failure to do so may entitle insurers to void cover from inception and seek repayment of paid claims. If you are in any doubt as to whether information is material, you should disclose it. The duty of disclosure is re-imposed when there are changes or variations in cover and when the insurance document is renewed or extended. In addition, changes that substantially increase the risk or relate to compliance with a warranty or condition in the insurance document must be notified at once.

Such cancellation shall become effective on the expiry of thirty (30) days from midnight of the day on which notice of cancellation is issued by or to the Insurers. Notwithstanding the foregoing, in the event that a financial strength rating is issued (1) below A- by A.M. Best Co., or (2) below A by Standard & Poor's Ratings Services, (A.M Best Co., and Standard & Poor's Rating Services hereinafter referred to as the "Rating Agency(ies)") for the Insurer (hereinafter "Financial Strength Rating Downgrade"), this policy may be cancelled by the Named Insured by mailing written prior notice to the Insurer or by surrender of this policy to the Insurer or its authorised agent.

If this policy is cancelled by the Named Insured within 30 days after such Financial Strength Downgrade, as measured from the date of the announcement by the Rating Agency, such announcement to include a press release or posting on the Rating Agency web site, of such Financial Strength Downgrade, the Insurer shall retain the pro rata proportion of the premium herein, the minimum earned premium (if any) or the actual earned premium calculated at the date of such cancellation (if the policy is subject to audit or reporting provisions), whichever is greater.

If this policy is cancelled by the Named Insured 30 days or more after such Financial Strength Rating Downgrade, then the Insurer shall retain premium as calculated per the original Cancellation Clause.

(B)

Notwithstanding the provisions of the paragraph above (A), in the event the Insured becomes legally liable in a court of competent jurisdiction for a percentage interest in any property or well greater than that of his working interest, or non-operating interest in such property or well, Insurers agree to provide coverage for the Insured to the extent of such increased percentage interest and the terms of paragraph (A) above shall then apply with respect to such increased percentage interest.

Insurers shall be subrogated to all of the Insured's rights of recovery against any party(ies) for whose percentage interest, or part thereof, in any well the Insured shall have become legally liable and for which and to the extent that Insurers have come liable under the extension of coverage provided by this paragraph (B).

Notwithstanding the foregoing, the provisions of this Clause are subject to the limit of liability set out in Section I, and Clause 5 (Subrogation) of the General Conditions of this Policy.

Applicable to Section II

As regards any liability of the Insured which is insured under this Section of the Policy and arises in any manner whatsoever out of the operations or existence of any joint venture, co-venture, joint lease, joint operating agreement or partnership (hereinafter called the "Joint Venture") in which the Insured has an interest:

- (A) the Underlying Amount,
- (B) the Each Accident Retention, and
- (C) the limits of liability of the Insurers under this Policy

shall be limited to the product of (i) the percentage interest of the Insured in the said Joint Venture or such percentage as takes account of any acceptance by the Insurers as set out in Clause 1(A)(iv) of these General Conditions, and (ii) the Underlying Amount, the Each Accident Retention, and the Limits

of Liability afforded the Insured by this Section of the Policy, respectively. Where the percentage interest of the Insured in said Joint Venture is not set forth in writing, the percentage to be applied shall be that which would be imposed by law at the inception of the Joint Venture. Such percentage shall not be increased by the insolvency of any members of the said Joint Venture or any other parties. This Joint Venture clause shall not apply to any liability of the Insured where, as a result of the circumstances of an Accident, the terms of the Joint Venture agreement place the whole liability of the Joint Venture on the Insured.

23 TITLES OF PARAGRAPHS

The titles of the various Clauses and paragraphs of this policy (and of any endorsements attached thereto) are inserted solely for convenience of reference and shall not be deemed in any way to limit or affect the provisions to which they relate.

CLAIMS CONDITIONS

24 NOTICE OF LOSS

Applicable to Sections I & III

As soon as reasonably practicable, written notice of loss which is likely to involve this Policy shall be given by the Insured to Insurers through the Intermediary.

Failure to notify a loss which, at the time of happening did not appear to involve this policy but which, at a later date, would have given rise to a claim hereunder, shall not prejudice the recovery of the claim by the Insured from these insurers. Notwithstanding the above this clause does not override any specific discovery/reporting provisions contained elsewhere in this policy.

Failure of Operators to report a loss under this insurance to the Named Insured shall not prejudice the Insured's rights under this policy. However, nothing contained within this clause shall operate to override any specific discovery/reporting provisions contained elsewhere.

Subject to proof of loss the Insurers agree that once it is determined that there is a valid claim under this policy, if the Insured shall have incurred any insured outlay and that outlay is substantiated by the Insured to the satisfaction of Insurers then the amount of the outlay shall be indemnified or paid on behalf of the Insured by the Insurers with reasonable dispatch even if the whole of the Insured's ultimate loss has still to be determined. Nor shall any indemnity from the Insurers be delayed pending the outcome of recourse efforts by the Insured, or by the Insurers by way of subrogation, against others.

Applicable to Section II

Prompt notice must be given to the Insurers whenever the Insured has information that a Claim, alone or in combination with any other Claims, may deplete by 50% or more the Underlying Amount or the Each Accident Retention, whichever is the greater.

For the purpose of this Clause 24 the Insured will notify the Insurers on the basis that the Insured is liable and further is liable for any amount claimed.

In addition to the notice requirements in this Policy, on request by the Insurers, the Insured will provide full details of all Accidents or Claims which could deplete the Underlying Amount, deplete the Each Accident Retention or ultimately give rise to indemnity under this Policy.

The Insured will co-operate fully with the Insurers should the Insurers decide to investigate any such Accident or Claim or any other Accident or Claim notified to the Insurers in accordance with other Sections of this Policy.

25 LOSS PAYEE CLAUSE

Loss, if any, under this insurance (except as otherwise specifically provided) shall be adjusted with and payable to the Insured herein in whom title to, or interest in, the exposure involved in such loss is vested at the time of the loss, or to their order.

Insurers will further consider claims submitted by the Principal Insured(s) as if risk in, title to and insurable interest in the subject matter insured was vested in the Principal Insured(s) at the time of the proximate cause of loss, even if such risk, title and insurable interest had not been acquired by the Principal Insured(s) at the time of the proximate cause of loss but only if at the time of the proximate cause of the loss the Principal Insured can evidence that it was legally obliged to complete the acquisition with penalty for failure to do so.

In respect of Section II, loss may be payable to third parties if and as directed by court judgements or in accordance with Settlement Agreements, but subject always to provisions of Exclusion 9 of these General Conditions, the Sanction Limitation and Exclusion Clause.

26 CLAIMS ADMINISTRATION – NOT APPLICABLE TO SECTION II

Where the Insured is not the Operator in a venture, privilege is granted to use the same loss adjuster as is being used by Insurers insuring the Operator and claims settlement under this insurance shall follow the claims settlement to the Operator and their loss adjusters, provided the Operator is insured, and then only within the terms and conditions of this insurance. Where the Insured is the Operator, the

Insured shall have the privilege to appoint loss adjusters from the following panel:

Matthews Daniel
Lloyd Warwick International
Charles Taylor Adjusting
Crawford and Company
Braemer Adjusting
or others to be agreed by Insurers.

All claims negotiations and settlements shall be agreed by the Insurers.

Claims settlements to be remitted within 30 days after final agreement by Insurers hereon.

27 ARBITRATION

In case the Insured and Insurers fail to agree as to any matter as respects this insurance, the decision shall be left to a single arbitrator, if the parties can agree on a single arbitrator, or failing such agreement, each shall, on the written demand of either, select a competent and disinterested arbitrator, one to be appointed by the Insured and one to be appointed by Insurers.

The Arbitrators then together shall first select a competent and disinterested umpire and failing for fifteen (15) days to agree upon such umpire then at the request of the Insured or Insurers, such umpire shall be selected by a Judge of a United Kingdom court having general jurisdiction in the area which includes the address of the Insured as set forth herein. The arbitrators together shall then decide the issue or issues and failing to agree shall submit their differences only to the umpire.

An award in writing of any two amongst the arbitrators and the umpire when filed with Insurers shall determine the issue or issues, such determination to be binding on the parties hereto. Each arbitrator shall be paid by the party(ies) selecting him and the expense of arbitration and of the umpire or single arbitrator, if any, shall be paid equally by the Insured (50%) and Insurers (50%).

28 LAW AND PRACTICE

Notwithstanding anything contained herein, or in any clause(s) or endorsement(s) attached hereto, to the contrary, in the event of a dispute between the Insured and Insurers this policy shall be governed by and construed in accordance with the Law of England and Wales and each party agrees to submit to the exclusive jurisdiction of the Courts of England and Wales.

29 LIMITATION OF ACTION

No suit or action on this insurance for the recovery of any claim shall be sustainable in any court of law or equity unless the Insured shall have fully complied with all the requirements of this insurance, and unless commenced within twenty-four (24) months after the time a cause of action for the loss accrues, provided, however, that where such limitations of time is prohibited by the law of the State or County wherein this insurance is used, then and in that event, no suit or action under this insurance shall be sustained unless commenced within the shortest time limitation permitted under the laws of such State or County.

30 DEFENCE - NOT APPLICABLE TO SECTION II

Insurers shall not be called upon to assume the handling or control of the defence or settlement of any claim made against the Insured but Insurers shall have the right, but not the duty, to participate with the Insured in the defence and control of any claim which may be recoverable in whole or in part under this policy.

Insurers shall not be called upon to pay any Defence Costs in relation to any claim until after the final resolution of such claim. Insurers shall not be liable to pay any Defence Costs unless the prior consent of Insurers was obtained before those Defence Costs were incurred.

31 CLAIMS PREPARATION COSTS

In the event of a loss that is anticipated to exceed the deductibles then this insurance includes the reasonable and supportable costs incurred by the Insured (including utilisation by the Insured of an external consultant but not for legal advice or representation) for preparing, presentation, certification

and/or verification of any claim(s) resulting from loss, destruction or damage insured under this insurance.

Subject to the applicable deductibles, this insurance also covers the costs and expenses reasonably incurred to determine the existence or extent of loss, destruction or damage where such loss, destruction or damage is reasonably suspected including such costs and expenses which show that loss, destruction or damage has not occurred. Excluding salaries, wages, and similar disbursements to own personnel or personnel on the payroll of the Insured, as well as the Insureds broker claims departments.

 - (c) safely diverted into production;or
- (ii) which flow is declared to be out of control by the appropriate regulatory authority.

Nevertheless and for the purpose of this insurance, a well shall not be deemed out of control solely because of the existence of occurrence therein of a flow of oil, gas or water into the well bore which can, within a reasonable period of time, be circulated out or bled off through the surface controls.

(C) Expenses

Expenses recoverable hereunder shall include costs of materials and supplies required, the services of individuals or firms specialising in controlling wells and directional drilling and similar operations necessary to bring the well(s) under control, including associated costs and costs and expenses incurred at the direction of regulatory authorities to bring the well(s) under control, and other expenses included within Clause 1 of this Sub—sub-section A.

However, no claim shall be payable by reason of this Clause where such flow can promptly be:

- (A) stopped by use of the equipment on site and/or the blowout preventer, storm chokes or other equipment required by the Due Diligence and Warranties clauses herein; or
- (B) stopped by increasing the weight by volume of drilling fluid or by the use of other conditioning materials in the well(s); or
- (C) safely diverted into production.

Nor shall a claim be payable by reason of this Clause where such flow can, within a reasonable period of time, be circulated out or bled off through the surface controls.

- (a) Costs and/or expenses incurred solely for the purpose of extinguishing or attempting to extinguish fire;
- (b) Costs and/or expenses incurred in regaining or attempting to regain control of a flow declared to be out of control by any regulatory authority but which costs and/or expenses would not have been covered under this endorsement in the absence of such declaration.

7 MAKING WELLS SAFE

In respect of wells insured hereunder and subject to all terms and conditions and exclusions stated therein and the Combined Single Limit of Liability applicable thereto, Sub-sub-Section A of this Section is endorsed to cover reimbursement to the Assured for the actual costs and expenses incurred in preventing the occurrence of a loss insured hereunder when the well or drilling and/or workover and/or production equipment has been directly lost or damaged by lightning; fire, explosion or implosion above the surface of the ground or water bottom; collision with land, sea or air conveyance or vehicle; windstorm, collapse of derrick or mast; collision or impact of anchors, chains, trawl boards or fishing nets; flood; strikes; riots; civil commotions or malicious damage and where covered under Sub-sub-Section A, earthquake, volcanic, eruption or tidal wave; but only when, in accordance with all regulations, requirements and normal and customary practices in the industry, it is necessary to re-enter the original well(s) in order to continue operations or restore production from or plug and abandon such well(s).

 - (i) with respect to drilling wells, to drill below the depth reached when the well became out of control as defined in Clause 2(A) of Sub-sub-section A of this Section and
 - (ii) with respect to producing or shut-in wells, to drill below the geologic zone or zones from which said well(s) was (were) producing or capable of producing.
- (D) In any circumstances, Insurers' liability under this Sub-sub-section B for costs and expenses shall cease when the depth set forth in Clause 1(C) have been reached and the well restored to a condition comparable to that existing prior to the occurrence giving rise to the claim, or so far as possible utilising generally available equipment and technology.

2 EXCLUSIONS

There shall be no indemnity or liability under this Sub-sub-section for:

- (A) any loss of or damage to any drilling or producing equipment;
- (B) any loss, damage or expense caused by or arising out of delay (including delayed/deferred production) and/or loss of use and/or loss of or damage to production (including that due to loss of reservoir pressure) and/or loss of or damage to any reservoir or reservoir pressure;
- (C) costs and/or expenses incurred to restore or redrill any relief well, or any part thereof;

3 EXTENDED REDRILLING AND RESTORATION COST

In respect of wells insured hereunder and subject to all terms and conditions and exclusions stated therein and the Combined Single Limit of Liability applicable thereto, Sub-sub-Section B of this Section is endorsed to cover reimbursement to the Assured for actual costs and expenses reasonably incurred to restore or redrill a well insured hereunder, or any part thereof, which has been lost or otherwise damaged as a result of physical loss or physical damage caused by lightning, fire, explosion or implosion above the surface of the ground or water bottom; collision with land, sea or air conveyance or vehicle; windstorm; collapse of derrick or mast; flood; strikes; riots; civil commotions or malicious damage; and where covered under Sub-sub-Section A, earthquake, volcanic, eruption or tidal wave; and in respect of offshore wells only, collision or impact of anchors, chains, trawl boards or fishing nets whether or not such physical loss or physical damage is sustained by the well directly or by the drilling and/or workover and/or production equipment and/or platform.

SECTION III, SUB-SECTION (C)

SEEPAGE AND POLLUTION, CLEAN-UP AND CONTAINMENT

1 INSURING AGREEMENTS

Insurers, subject to the Combined Single Limit of Liability, terms and conditions of this Section III, agree to indemnify the Insured against;

- (A) all sums which the Insured shall by law or under the terms of any oil and/or gas and/or thermal energy lease and/or license be liable to pay for the cost of remedial measures and/or as damages for bodily injury (fatal or nonfatal) and/or containment and/or loss of, damage to or loss of use of property caused directly by seepage, pollution or contamination arising from wells insured herein.
- (B) the cost of, or any attempt at, removing, nullifying or cleaning up seeping, polluting or contaminating substances emanating from wells insured herein. Including the cost of containing and/or diverting the substances and/or preventing the substances reaching the shore;
- (C) costs and expenses incurred in the defence of any claim or claims resulting from actual or alleged seepage, pollution or contamination arising from wells insured herein. Including defence costs and costs and expenses of litigation, awarded to any claimant against the Insured, provided, however, that the inclusion of the above costs and expenses shall in no way extend the Combined Single Limit of Liability of Insurers under this Section;

provided always that such seepage, pollution or contamination results from both;

- (i) an accident or occurrence taking place during the Period of Insurance (including any continuation thereof provided for by Clause 16 of the General Conditions and of which notice has been given in accordance with Clause 24 of the General Conditions of this Section of the Policy and,
- (ii) an occurrence giving rise to a claim which would be recoverable under Section III Sub-section A of this Policy if the Insured's deductible under Sub-section A were nil.

2 COSTS AND APPEALS CLAUSE

In the event of any claim and/or series of claims arising out of one occurrence where the Insured's final gross claim is likely to exceed the Excess herein, no costs shall be incurred on behalf of Insurers without the consent of Insurers, and if such consent is given, Insurers shall consider such costs as part of the final claim hereunder. No settlement of losses by agreement shall be effected by the Insured without the consent of Insurers where the Insured's final gross claim will exceed the Excess.

In the event that the Insured elects not to appeal against a judgement in excess of the Excess, Insurers may elect to conduct such appeal at their own cost and expense, and shall be liable for the taxable cost and interest incidental thereto, but in no event shall the liability of Insurers exceed the Limit of Liability applicable to this Sub-Section of the Policy.

3 EXCLUSIONS

There shall be no indemnity or liability under this Sub-sub-section for:

- (A) any loss of or damage to any drilling or production equipment at the site of any well insured herein;
- (B) any claim recoverable under this policy solely by reason of the addition or attachment to Sub-sub-section A of this Sub-Section of the Underground Control of Well Clause;

- (C) any claim arising directly or indirectly from seepage, pollution or contamination if such seepage, pollution or contamination;
 - (i) is deliberate from the standpoint of the Insured or any other person or organisation acting for or on behalf of the Insured; or
 - (ii) results directly from any condition which is in violation of or non-compliance with any governmental rule, regulation or law applicable thereto. Notwithstanding the foregoing, this exclusion does not apply with respect to any such condition which at the time of loss is in the process of being corrected by a schedule or programme sanctioned and approved by the appropriate governmental authority with jurisdiction over such rule, regulation or law, to the extent that the Insured is in compliance with such schedule or programme;
- (D) any claims for mental injury, anguish or shock unless the same results from physical injury to the claimant.

4 POLLUTION FROM PROPERTIES

Subject to the terms, conditions, exclusions and Combined Single Limit of Liability of this Section, it is agreed to extend coverage under this Sub-section C to indemnify the Insured against all sums, costs and expenses as defined in the Insuring Agreements applicable to this Sub-section C arising from Seepage, Pollution or Contamination arising from property covered under Section I of this Policy.

However, no indemnity shall be payable to the Insured in respect of such properties unless all of the following conditions have been met:

- (A) the seepage, pollution or contamination was caused by an event and
- (B) the event first commenced on an identified specific date during the period specified in the schedule attached hereto.
- (C) the event was discovered by the Insured and/or the Operator within 30 days of such first commencement and
- (D) written notification of the event was first received from the Insured by Insurers within 60 days of the Insured's first discovery of the event where the Insured is the Operator or 90 days where the Insured is non-Operator and
- (E) the event was unintended and unexpected and did not result from the Insured's intentional violation of any statute, rule, ordinance or regulation.

Notwithstanding the above, where an Insured hereunder is non-operator, the discovery and notice periods shall commence from the date the Insured is advised in writing of an event by the operators.

Even if the above conditions (A) to (E) above are satisfied this extension of coverage does not apply to any actual or alleged liability:

- (i) which arises after Insurers have settled a claim for costs of evaluating, monitoring, controlling, removing, nullifying and/or cleaning-up seeping, polluting or contaminating substances to the satisfaction of existing statutes, rules, ordinances, regulations or contracts, where subsequent amendments to such statutes, rules, ordinances, regulations or contracts impose additional liability upon the Insured.
- (ii) to abate or investigate any threat of seepage onto or pollution or contamination of the property of third parties, but in the event any pollution hazard becoming inevitable and/or imminent, the cost of any reasonable measures taken to prevent such pollution

hazard or claim shall be included in the claim hereunder.

5 EVACUATION EXPENSES

In respect of wells insured hereunder and subject to all terms and conditions and exclusions stated herein and the Combined Single Limit of Liability applicable hereto, Sub-section C of this Section is extended to reimburse the Insured for reasonable costs and/or expenses which the Insurers incurs in the evacuation of people (other than the Insured's employees or those of contractors or subcontractors of the Insured), animals and/or property (other than the Insured's property or that of contractors or subcontractors of the Insured) but only where and to the extent that the evacuation has taken place by order of any local, state or federal governmental or regulatory authority or public emergency service, and only following a well out of control as defined in Sub-section A of this Section, fire or escape of oil and/or gas or the imminent threat thereof, which has resulted, or which would result, in a claim recoverable elsewhere under this insurance if the Insured's retention applicable thereto were nil.

Costs and expenses, if covered hereunder by the terms and conditions set forth above, shall include but not be limited to all reasonable costs of transportation, costs of storage, keeping or lodging and/or maintain evacuated people, animals and/or property.

Exclusion

There shall be no indemnity or liability under this Clause for loss of use of evacuated property and loss of earnings or any other income by any evacuated persons.

SECTION III, SUB-SECTION D

1 COVERAGE

Subject to the General Conditions of this Policy and the terms and conditions of Section III, this insurance is extended to cover the Insured's legal or contractual liability as oil lease operators (or Co-Venturers where applicable) for Property Damage to, oil field equipment, including but not limited to drill pipe, drill collars, subs, drill bits and core barrels, leased or rented by the Insured or in its care, custody and control whilst at the site and/or in transportation to or from any Well Insured under Sub-section A of this Section.

The term Property Damage wherever used in this Sub-section D means physical loss or physical damage to property of others, including expenses of salvage, expenses of removal of wreckage and/or debris of the property so lost or damaged.

2 LIMIT OF LIABILITY

Insurers' liability in respect of claims under this Sub-section D is limited to the amount set out in Risk Details, which shall be separate from and in addition to the Combined Single Limit of Liability for Sub-sub-sections A, B and C of Section III set out in Risk Details.

Notwithstanding the foregoing, Insurers' liability under this Sub-section shall not exceed the amount assumed contractually by the Insured and the basis of recovery under this Sub-section shall be as assumed contractually by the Insured.

3 INSURED'S RETENTION

Insurers' limit of liability specified in Clause 2 of this Sub-section shall be excess of the Insured's Retention set out in Risk Details, which shall be separate from and in addition to the Insured's Retention(s) for Sub-sections A, B and C of Section III set out in Risk Details.

4 IN-HOLE SALVAGE EXPENSES

In the event that in-hole salvage expenses or fishing costs are incurred in respect of equipment for which the Insured has assumed responsibility and which is lost or damaged as a result of a peril insured against in this Sub-section, the maximum amount recoverable for such salvage expenses or fishing costs shall be 25% of the value of the lost or damaged equipment in the hole at the time of loss and which is the object of salvage or fishing efforts, always subject to the overall limit of liability specified in Clause III above.

5 EXCLUSIONS

Notwithstanding anything contained herein to the contrary, Insurers shall not be liable for claims under this Sub-section in respect of loss of or damage to:

- (A) equipment owned by the Insured or in which the Insured has a financial interest;
- (B) drilling or workover rigs or any component thereof,
- (C) diamond bits and/or diamond bit core barrels;
- (D) mud, chemicals, cement, the Well or casing installed therein;
- (E) in-hole equipment while in the hole, unless the Insured's liability has resulted from physical loss or damage to such equipment as a result of (i) an Occurrence giving rise to a claim which would be recoverable under Sub-section A if the Insured's Retention applicable to Sub-section A were nil, or (ii) fire, windstorm or total loss of the drilling or workover rig.

- (F) This Sub-section shall not cover or contribute to any loss, damage or expense caused by or resulting from delay; loss of use; wear; tear; gradual deterioration; mysterious disappearance; inventory shortage; explosion, rupture or bursting of engines, pumps, piping, tanks or any pressure container from internal pressure; electrical injury or disturbance to electrical appliances or wiring resulting from artificial or natural causes (unless fire ensues, and then from loss or damage by fire only); latent defect; faulty design; mechanical failure or breakdown of equipment leased or rented by the Insured or in the Insured's care, custody and control

6 BASIS OF INDEMNITY

The Insurers shall not be liable for loss of or damage to equipment beyond the actual sound value of such equipment at the time of loss, ascertained with proper deductions for depreciation, wear, tear and obsolescence. As respects leased or rented equipment, the Insurers shall not be liable for any sum greater than that assumed by the Insured under the terms of the rental or lease agreement, less any trade or volume discount allowed by the leasing or rental company, nor shall the Insurers' liability exceed what it would cost to repair or replace any equipment involved in any loss recoverable hereunder with other equipment of like kind and quality.

The Insurers shall have no liability for loss or damage to equipment if the drilling contract is negotiated on a turnkey or completed well basis.

7 WRITTEN CONTRACT REQUIREMENT

This Sub-sub-section shall not afford coverage with respect to any operations performed for the Insured, or for the account of the Insured by another operator, upon which a written contract with the contractor has not been executed within forty eight (48) hours of the commencement of such operations, incorporating all the provisions and conditions to be effective as respects such operations. Further, this Sub-sub-section shall not extend to any oral agreements prior or subsequent to or simultaneously with the execution of the written contract on such operations, and this Sub-sub-section shall not extend to any subsequent written agreement or rider to the original contract, other than to deepen or lengthen any Well beyond the specified total depth of the original contract, affecting the assumption of liability by the Well owner for contractor's equipment.

PLUGGING AND ABANDONMENT EXPENSES ENDORSEMENT

In consideration of the premium charged and subject to all terms and conditions and exclusions stated therein and the Combined Single Limit of Liability applicable thereto, this Section provides coverage for Plugging and Abandonment Expenses but subject to the following terms, conditions and limitations.

Coverage is afforded for the actual incurred Plugging and Abandonment Expenses but only where the following conditions are met:

1. The Plugging and Abandonment is required by the governing regulatory authority; and
2. The expenses are the sole result of an Occurrence otherwise recoverable under Section III of this policy or any extension therein.

From such expenses shall be deducted all Routine Plugging and Abandonment Expenses and in no event are Routine Plugging and Abandonment Expenses recoverable under this policy.

For the purposes of this endorsement Routine Plugging and Abandonment Expenses shall be defined as the amount of Plugging and Abandonment Expenses which would have formed part of the operations being undertaken at the time the loss occurred that is the subject of the claim and that would have been incurred to terminate operations in the well if the loss that is the subject of the claim had not occurred. The book value of such expense will not be considered, rather, the calculation of such expense shall be by estimate of the actual cost of such operations on the well to be obtained by the adjuster assigned to the claim.

For the avoidance of doubt Routine Plugging and Abandonment Expenses does not relate to expenses that would have been incurred to plug and abandon a well at the end of the life of that well, unless such plugging and abandoning was the operation being undertaken at the time of the loss.

MULTI WELL PAD ENDORSEMENT

In the event that multiple wells drilled from the same pad are involved in a single Occurrence giving rise to a claim hereunder, Insurers agree that the applicable Limit and Retention shall apply per well, subject to an overall limit per Occurrence of the sum of the two **largest** per well limits (100%) on the pad involved in the claim but never to exceed USD 600,000,000 (100%) in all, any one occurrence.

EXCESS LIABILITY CLAIMS MADE POLICY - LSW 244 (Amended)

This is an excess liability claims made Section which is not subject to the terms and conditions of any other insurance. It should be read carefully by the Insured.

I. INSURING AGREEMENTS

1. COVERAGE

In consideration of the payment of the premium set out in Item 9 of the Declarations and in reliance upon the statements in the proposal referred to in Item 11 of the Declarations and any supplementary information pertaining thereto, Insurers agree subject to the insuring agreements, conditions, exclusions, definitions and declarations contained in this section, to indemnify the Insured in respect of their operations anywhere in the world, for Ultimate Net Loss by reason of the liability imposed upon the Insured by law or assumed under an indemnification contract, for damages in respect of a claim for Bodily Injury and/or Personal Injury and/or Property Damage and/or Advertising Injury which the Insured neither intended nor expected nor reasonably should have expected, resulting from an accident which first commences on an identifiable specific date on or after the retroactive date set out in Item 6 of the declarations PROVIDED

- (a) such claim made is first received by the Insured during the policy period set out in Item 5 of the declarations, OR
- (b) the Insured gives written notification of such accident which notification is received by Insurers within 120 days of such accident and the date of such receipt is during the policy period set out in Item 5 of the declarations, OR
- (c) the Insured gives written notification of the discovery of his involvement in such accident which consists of unintended fire or explosion; lightning; impact of aircraft, automobile, railroad locomotive or rolling stock; impact, capsize or sinking of watercraft; but only if the notification is received by Insurers within 120 days of such discovery and the date of such receipt is during the policy period set out in Item 5 of the declarations, OR
- (d) the Insured gives written notification of the discovery of such Bodily Injury, Personal Injury, Property Damage and/or Advertising Injury to a named individual person or named individual entity arising out of such accident; but only if the notification is received by Insurers within 120 days of such discovery and the date of such receipt is during the policy period set out in Item 5 of the declarations.

With respect to a) above, for the purpose of applying the underlying amount or the each accident retention, Insurers will treat such Bodily Injury, Personal Injury, Property Damage and/or Advertising Injury included in each claim as resulting from a separate accident.

With respect to b) and c) above, Insurers will only provide indemnity for any claims relating to such notification which claims are first received by the Insured during a period of 7 years from the date such notification is received by Insurers; in which case, for the purpose of applying the underlying amount or the each accident retention, Insurers will treat all such Bodily Injury, Personal Injury, Property Damage and/or Advertising Injury as resulting from one accident; further such accident will be treated as arising on the date such notification was received by Insurers or the expiry date of this policy, whichever is the earlier.

With respect to d) above, Insurers will only provide indemnity for any claims relating to such notification which claims are first received by the Insured during a period of 7 years from the date such notification is received by Insurers; in which case, for the purpose of applying the underlying amount or the each accident retention, Insurers will treat such Bodily Injury, Personal Injury, Property Damage and/or Advertising Injury suffered by each named individual person or each such named individual entity as resulting from a separate accident; further such accident will be treated as arising on the date such notification was received by Insurers or the expiry date of this policy, whichever is the earlier.

Where the accident under b) above or the discovery under c) and d) above takes place within the last 120 days of the period set out in Item 5 of the declarations, such period shall be extended for up to 120 days solely so as to treat any notification received by Insurers within such extension of 120 days as if it had been received on the expiry date of the policy period set out in Item 5 of the declarations.

In no event shall the liability of Insurers exceed the relevant limits of liability set out in Item 4 of the declarations; such limits of liability shall apply to the period of this policy set out in Item 5 of the declarations combined with the 7 year periods set out above.

2. UNDERLYING AMOUNT/EACH ACCIDENT RETENTION

Only that part of any payment constituting Ultimate Net Loss shall deplete the underlying amount set out in Item 2 of the declarations or the each accident retention set out in Item 3 of the declarations. Regardless of the number of claims made against the Insured, where the underlying amount is in respect of each accident, the Insured shall always be liable for either the underlying amount or the each accident retention, whichever is the greater, in respect of each and every accident.

Regardless of the number of claims made against the Insured, where the underlying amount is in the aggregate, the Insured shall always be liable for the remaining underlying amount or the each accident retention, whichever is the greater, in respect of each and every accident.

The each accident retention shall be subject to no aggregate limitation regardless of the number of accidents or Claims made against the Insured.

The Insured shall have the right to insure all or part of the underlying amount(s) and/or the each accident retention, but Insurers shall not be subject to the terms and conditions of such insurance.

3. LIMITS OF LIABILITY

Insurers shall only be liable for Ultimate Net Loss in excess of the underlying amount set out in Item 2 of the declarations or the each accident retention set out in Item 3 of the declarations, whichever is the greater.

Regardless of the number of accidents or claims made against the Insured, Insurers' total limits of liability shall not exceed the amount of Ultimate Net Loss set out in Item 4 of the declarations. Such limits include defence expenses.

4. JOINT VENTURES

Deleted

II. CONDITIONS

This sub-section is subject to the following conditions:

1. INSOLVENCY

Deleted

2. OTHER INSURANCE

Where the Insured is, irrespective of this sub-section, entitled to be indemnified in whole or in part by any other insurance in respect of any damages which would otherwise have been indemnifiable in whole or in part by the Insurers of this sub-section, there shall be no contribution or participation by the Insurers of this sub-section on the basis of any deficiency, concurrent or double insurance for such damages or that part of such damages for which the Insured is entitled to be indemnified by such other insurance. This condition will apply whether or not the Insured is actually indemnified by such other insurance.

3. NOTICE OF CLAIM

Deleted

4. PREVENTION OF FURTHER CLAIMS

As soon as the Insured becomes aware of an accident or receives a claim, the Insured shall promptly, and at its own expense, take all reasonable steps to prevent further Bodily Injury, Personal Injury, Property Damage and/or Advertising Injury resulting from the same accident or conditions which may give rise to a similar accident.

5. ATTACHMENT OF LIABILITY

Liability to pay under this section shall not attach unless and until the Insured has, with Insurers' prior written consent, paid an amount of Ultimate Net Loss which exceeds the underlying amount set out in Item 2 of the declarations or the each accident retention set out in Item 3 of the declarations, whichever is the greater.

6. DEFENCE

Insurers shall not be called upon to assume the handling or control of the defence or settlement of any claim made against the Insured but Insurers shall have the right, but not the duty, to participate with the Insured in the defence or settlement of any claim which may be indemnifiable in whole or in part by this section.

Insurers will pay any defence expenses incurred after exhaustion of the underlying amount or each accident retention, whichever is the greater, provided the prior written consent of Insurers is obtained before those defence expenses are incurred and subject to Insurers' limits of liability set out in Item 4 of the declarations.

7. APPEALS

In the event the Insured elects not to appeal, a judgment which may, in whole or in part, involve indemnity under this section, Insurers may, following discussion with the Insured, elect to make such appeal at their own cost and expense and shall be liable for the taxable costs and disbursements and any additional interest incidental to such appeal; but in no event shall the liability of Insurers exceed the relevant limits of liability set out in Item 4 of the declarations plus such cost, expense, costs, disbursements and interest.

8. APPORTIONMENT OF DEFENCE EXPENSES

Whenever any written demand received by the Insured for damages is finally resolved by a payment by the Insured which, regardless of the amount thereof, is only covered in part by this section, then the percentage of any defence expenses that can be included in the Ultimate Net Loss shall be calculated by dividing that part of such payment which is covered by this section, by the total amount paid by the Insured.

9. LOSS PAYABLE

Deleted

10. SUBROGATION

Deleted

11. APPLICATION OF RECOVERIES

Deleted

12. WAIVER OR CHANGE

Notice to or knowledge possessed by any person shall not effect a waiver or change in any part of this section or stop Insurers from asserting any right under this section; nor shall any part of this section be waived or changed, except by endorsement issued to form a part hereof, signed by Insurers.

13. ASSIGNMENT

Assignment of interest under this section shall not bind Insurers unless and until their written agreement thereto is secured.

14. CANCELLATION

Deleted

15. EXTENDED CLAIMS MADE PERIOD

- (a) If Insurers decline to renew or cancel this section for reasons other than the Insured's non-payment of premium or non-compliance with the terms and conditions of this section, or
- (b) if the first named Insured declines to renew this section, or
- (c) if Insurers require the specific exclusion of an accident, product or operations on renewal of this section

then the first named Insured, upon payment of an additional premium calculated at the percentage set out in Item 7 of the declarations of the premium set out in Item 9 of the declarations, shall have the right to extend the period in which a claim made against the Insured after the section period set out in Item 5 of the declarations, is treated by Insurers as made on the expiry date set out in Item 5 of the declarations:

- (i) in respect of a) or b) above: for a period of 10 years,
- (ii) in respect of c) above: for a period of 10 years in respect of the excluded Accident, product or operations,

PROVIDED ALWAYS that such claim results from an accident which first commences prior to or on the expiry date set out in Item 5 of the declarations.

This right of extension must be exercised by the first named Insured giving written notice which must be received by Insurers within 30 days after the date the refusal to renew, cancellation or exclusion referred to above takes effect and paying the additional premium to the person or entity set out in Item 10 of the declarations within 45 days after such notice has been received by Insurers. If the notice is not received by Insurers within such 30 days the Insured shall not, at a later date, be able to give such notice. If the first named Insured fails to pay the additional premium to the person or entity set out in Item 10 of the declarations within 45 days after such notice has been received by Insurers, all Insureds' rights under the extended claims made period shall be rendered null and void and Insurers shall be relieved of all liability under the extended claims made period.

In no event shall the liability of Insurers exceed the relevant limits of liability set out in Item 4 of the declarations; such limits of liability shall apply to the period of this Policy set out in Item 5 of the declarations combined with the extended claims made period set out above.

If the first named Insured extends the claims made period in accordance with the above, Insurers shall not be able to cancel the extension; nor shall the Insured be entitled to any return of all or any part of the additional premium paid in the event that the Insured should cancel the extension.

16. CURRENCY AND PAYMENT OF PREMIUMS

Deleted

17. SERVICE OF SUIT

If and as attached to this section.

18. INSPECTION AND INVESTIGATION

Deleted

19. CROSS LIABILITY

In the event of claims being made by reason of Bodily Injury suffered by any employee of one Insured which does not arise out of the injured employee's employment, for which another Insured is liable, then this section shall cover the Insured against whom such claim is made in the same manner as if separate policies had been issued to each Insured.

Nothing contained in this Condition 19 shall operate to increase Insurers' limits of liability set out in Item 4 of the declarations.

III. EXCLUSIONS

INSURER'S LIABILITY:

Insurer's liability several not joint

The liability of an insurer under this contract is several and not joint with other insurers party to this contract. An insurer is liable only for the proportion of liability it has underwritten. An insurer is not jointly liable for the proportion of liability underwritten by any other insurer. Nor is an insurer otherwise responsible for any liability of any other insurer that may underwrite this contract.

The proportion of liability under this contract underwritten by a insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp. This is subject always to the provision concerning "signing" below.

In the case of a Lloyd's syndicate, each member of the syndicate (rather than the syndicate itself) is a insurer. Each member has underwritten a proportion of the total shown for the syndicate (that total itself being the total of the proportions underwritten by all the members of the syndicate taken together). The liability of each member of the syndicate is several and not joint with other members. A member is liable only for that member's proportion. A member is not jointly liable for any other member's proportion. Nor is any member otherwise responsible for any liability of any other insurer that may underwrite this contract. The business address of each member is Lloyd's, One Lime Street, London EC3M 7HA. The identity of each member of a Lloyd's syndicate and their respective proportion may be obtained by writing to Market Services, Lloyd's, at the above address.

Proportion of liability

Unless there is "signing" (see below), the proportion of liability under this contract underwritten by each insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp and is referred to as its "written line".

Where this contract permits, written lines, or certain written lines, may be adjusted ("signed"). In that case a schedule is to be appended to this contract to show the definitive proportion of liability under this contract underwritten by each insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together). A definitive proportion (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of a Lloyd's syndicate taken together) is referred to as a "signed line". The signed lines shown in the schedule will prevail over the written lines.

Although reference is made at various points in this clause to "this contract" in the singular, where the circumstances so require this should be read as a reference to contracts in the plural.

However:

- a) in the event that the placement of the order is not completed by the commencement date of the period of insurance then all lines written by that date will be signed in full;
- b) the insured may elect for the disproportionate signing of insurers' lines, without further specific agreement of insurers, providing that any such variation is made prior to the commencement date of the period of insurance, and that lines written "to stand" may not be varied without the documented agreement of those insurers.

The signed lines resulting from the application of the above provisions can be varied, before or after the commencement date of the period of insurance, by the documented agreement of the insured and all insurers whose lines are to be varied. The variation to the contracts will take effect only when all such insurers have agreed, with the resulting variation in signed lines commencing from the date set out in that agreement.

EPA issues statement debunking claims by AFC on Full Liability Coverage

Aug 06, 2022 News

See below statement by the Environmental Protection Agency (EPA) on full liability coverage.

Kaieteur News – The EPA noted inaccuracies in a recent press release by the AFC repeating certain statements made by the former head of the EPA, Vincent Adams. The EPA offers the following response to provide clarity to the public to avoid any further confusion on the subject of insurance and liability coverage.

The Environmental Protection Agency is guided first and foremost by the Environmental Protection Act and its suite of regulations. Where the risk of oil spills is concerned, **financial assurance** is provided for Sections 30 and 31 of the Environmental Protection Act.

Insurance

It must be made clear that only Liza 1 permit issued in 2017 did not have a specific requirement for insurance coverage. Whilst the insurance requirement was introduced in Liza 2, it was only in the Payara, Yellowtail and the recently renewed Liza 1 Permits were the requirement for insurance coverage and parent guarantee clearly defined.

In Yellowtail Permit, it is ensured that EEPGL is held liable for all costs associated with clean up, restoration and compensation for any pollution damage, which may occur as consequence of the project. EEPGL is also required to have Financial Assurance which includes a combination of Insurance which must "cover well control, and/or clean up and third-party liability on terms that are market standard for the type of coverage".

The EPA is in receipt of insurance policies from EEPGL for all permits issued namely Liza1, Liza 2, Payara and is currently awaiting Yellowtail insurance policy. Each of these insurance policies have been executed and has coverage of a total of US\$600 million per occurrence of a spill event This per occurrence value covers third party liabilities, clean up and well control.

None of the insurance policies provided has US\$2.5 billion coverage for oil spill as is purported by the former EPA Head.

Parent Company/Affiliate Guarantee

The EPA was presented with a draft parent company/affiliate guarantee and is engaging EEPGL on its proposed total guarantee of US\$2 billion from an affiliate company in the event EEPGL and its Co-Venturers default. The EPA is ensuring that the circumstances under which the affiliate guarantee will be operationalized and the specific obligations covered are clear and acceptable. The EPA in the Yellowtail and renewed Liza 1 permits require that a Parent Company/Affiliate Guarantee Agreement is provided which **indemnifies and keeps indemnified the EPA and the Government of Guyana** in the event EEPGL and its Co-Venturers fail to meet their environmental obligations under the Permit. Further, the EPA required that the financial assurance (US\$2 billion) provided must be guided by an estimate of the sum of the reasonably credible costs, expenses, and liabilities that may arise from any breaches of this permit. Liabilities are considered to include costs associated with responding to an incident, clean-up and remediation and monitoring.

It is also ensured that this value can be renegotiated to cover for increasing risks in the Stabroek block as a result of increasing projects.

EPA still in negotiation phase with Exxon on US\$2B liability coverage – EPA Head

August 17, 2022

...says agency awaiting further information

The Environmental Protection Agency (EPA) is still in the process of determining the level of liability coverage that ExxonMobil through its subsidiary Esso Exploration and Production Guyana Limited (EEPGL) will put up, with the US\$2 billion proposal still up in the air.

This was explained by EPA Executive Director Kemraj Parsram, who informed Guyana Times that his agency is still awaiting information from the oil company on what the real credible cost would be in the hypothetical case of an oil spill.

“We are awaiting the estimates required... of the real credible cost for a worst-case scenario spill, to determine whether that proposal of \$2 billion is adequate or whether we need to review it further for liability coverage,” he explained.

“So that is still ongoing. We’re awaiting that estimate to be provided to us. Once I get we’ll determine if the terms are acceptable,” Parsram further explained in an

exploration activities.

Last month, Attorney General Anil Nandlall had referred to these negotiations in his programme, "Issues in The News", after the National Assembly dismissed a motion tabled by the A Partnership for National Unity/Alliance for Change (APNU/AFC) Opposition, proposing "full unlimited coverage for oil spills and other disasters related to the petroleum sector".

Speaking about the motion, which was tabled by Opposition Member of Parliament David Patterson, the Attorney General pointed out that the concept of unlimited insurance can only be a theoretical construct, and does not exist in the real world.

While the motion was eventually thrown out by a majority vote from the Government's side against it, Nandlall had noted that such a proposal is unpragmatic.

"Practicality and pragmatism do not support this concept of an unlimited insurance. The concept is repulsive to reality... No insurance company would issue a policy that has no limit. What is the ceiling? How much are they going to pay? An insurance policy is grounded in the law of contract; contract, by its very nature, must be precise." "It must have terms and conditions that are precise, so that people can know what they are agreeing to. Who will agree to a contract that has limitless liability? Which insurance company will agree to a contract that has no ceiling on the limit?" he had argued.

It had previously been pointed out by EEPGL's Vice President and Business Services Manager, Phillip Rietema, who facilitated a sit-down with the media, that the affiliate was established since 1998, and had, as of year-end 2020, approximately US\$5 billion in assets.

These assets are considered a primary form of financial assurance and are separate from the assets of the other Stabroek Block co-venturers. In fact, Exxon noted that these other co-venturers also have substantial assets and share any liability for response activities.

The company had also noted that in Guyana, it adhered to an internationally-accepted, tiered response system used to determine the requirements of response

National Oil Spill Response Plan of Guyana that was implemented in 2021.

All of this combines to provide an efficient framework to build preparedness and response capabilities matching the oil spill risks from any of its operations.
